

Press Release – October 2007

Durofix – 10.8V Lithium Ion Impact Driver and 2 Speed Drill / Driver

Concept is proud to announce the launch of a new brand in power tools , Durofix Lithium Ion Power Tools are all powered by the latest Sony Lithium Ion batteries and are of the highest quality in terms of components and reliability .

The manufacturer of the tools has many years expertise and experience in developing and manufacturing power tools for other companies but Durofix represents the culmination of years of research and development and is their own premium brand product .

All the Durofix tools have been manufactured to the highest standard in terms of components parts and motors and with the end user very much in mind and the tools are powered by Sony Lithium Ion batteries , considered by many to be the best batteries available .

The first two tools to be launched are 10.8V , very compact , very lightweight tools and in terms of performance and capability are better than anything else available in 10.8V . There is a 10.8V impact driver with outstanding performance and a totally unique 10.8V 2 Speed Drill / Driver with 10mm chuck which has far more capability than most other 10.8V drivers which only have hex shaft chucks and much lower spin speeds .

Both tools are supplied in hard durable carry cases perfect for tradesmen and are accompanied by 2 batteries , spare brushes , charger and free bit set . Both tools have soft , non slip grips and both tools are beautifully balanced for use .

The tools are unique in that they are possibly the fastest charging power tools around with **the batteries fully re-charged in only 15 minutes** .

The specifications of the two tools are as follows –

10.8V Impact Driver

- 102Nm of Torque
- 2200 RPM , 3000 BPM
- 2 x Sony Li-ion Batteries , 15 Minute Fast Charger

- LED light built-in
- Forward , Reverse , Electric Brake and all metal gearbox
- Easy Brush change and spare brushes included
- Hard Durable Carry Case , Free Bit Set

10.8V 2 Speed Drill / Driver

- 27Nm of Torque
- 1240 RPM
- 20 Torque Settings
- 2 x Sony Li-ion Batteries , 15 Minute Fast Charger
- LED light built-in
- Forward , Reverse , Electric Brake and all metal gearbox
- Easy Brush change and spare brushes included
- Hard Durable Carry Case , Free Bit Set

Both tools have a one year warranty . In testing the reliability levels are of the very highest standard .
