

Concept Distribution Limited has the collated solution for your needs with the unique 14.4 Volt Impact and Collated Driver which serves as two tools in one. The powerful impact driver can be changed to a collated autofeed tool by simple addition of attachment. This tool was voted as one of **Professional Builder's Top Products for 2006** by its readers. The driver is suitable for collated screws 25-50mm and has 167 Nm of power and is supported by two very powerful batteries. Concept offer a range of premium quality collated screws as well as the perfect woodscrew for impact drivers.
